

CLARK PACIFIC PREFABRICATED BUILDING SYSTEMS

For over 60 years, Clark Pacific has led the way in prefabricated building systems, combining innovative manufacturing with construction excellence to improve project outcomes and enhanced customer experiences. We seamlessly integrate manufacturing and construction to deliver high-quality solutions, ensuring projects are completed on time and within budget.

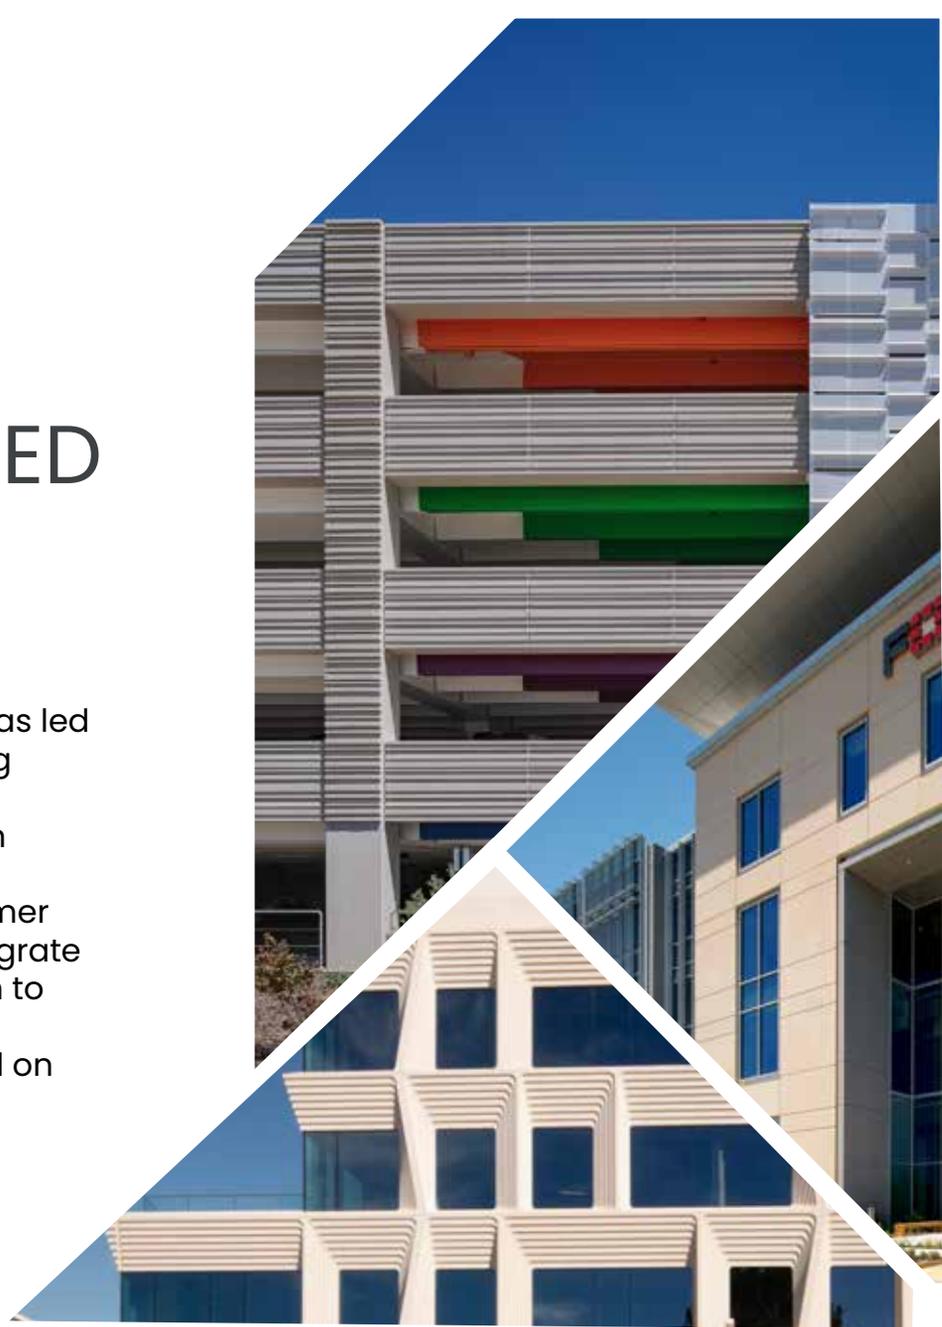

FULL-SERVICE MANUFACTURER

OUR SERVICES INCLUDE:

- Design and Engineering Services
- Manufacturing and Quality Control
- Transportation and Logistics
- Erection and Build Services
- Full Warranty on our Systems

OUR MISSION IS SIMPLE:

*Reducing complexity for
the built environment.*

**63+ YEARS IN
BUSINESS**

**1500+ STRUCTURAL
AND ARCHITECTURAL
PROJECTS**

**2 PRODUCTION
FACILITIES**

PRODUCT OFFERINGS

Using the latest off-site manufacturing technologies, our products improve project stakeholder outcomes by reducing the complexity and risk of traditional construction while offering design flexibility to achieve your vision.

Structural Data Center Solutions deliver efficient, repeatable, and scalable building systems that accelerate construction for mission-critical operations.

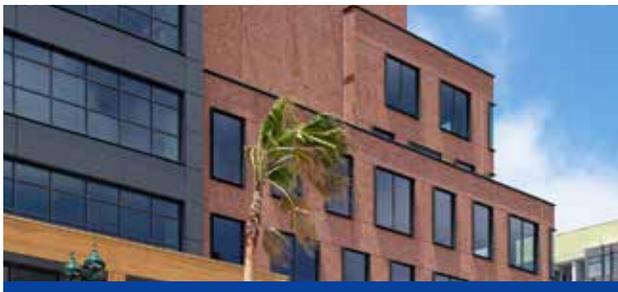

FULL STRUCTURAL DATA CENTER
WESTERN UNITED STATES

PARC offers a cost-effective, high-quality parking structure solution that's delivered quickly and with design flexibility. By merging our standardized PARC product with our in-house Design-Build services, we streamline the process; entitlement through handover.

UCDH AGGIE SQUARE 6
SACRAMENTO, CA

Infinite Facade® our pre-engineered building envelope system, integrates multiple scopes and offers more design flexibility.

SUSTAINABLE MANUFACTURING

Clark Pacific emphasizes sustainability through our responsible manufacturing practices. Our manufacturing facilities generate nearly zero waste and relies on clean energy for our electrical needs. Additionally, our proprietary **CARBONSHIELD®** concrete mix reduces the use of Portland Cement in concrete, lowering embodied carbon in our structural systems.
