

# INSULATED WALL PANELS

A practical choice for commercial use and data centers, our insulated wall panels can be customized based on project-specific thermal requirements and finish options making them ideal for use across a range of applications. Panels are manufactured at one of our offsite facilities and delivered for quick installation in the field, minimizing risk and site impacts.

## CORE BENEFITS

**ENERGY  
EFFICIENCY**

**REDUCED MAINTENANCE  
SUPERIOR DURABILITY**

**SPEED OF  
CONSTRUCTION**

**INTEGRATED SUPPORT  
FOR REDUCED  
STRUCTURAL FRAMING**

**MINIMAL SITE DISRUPTION  
SMALL CREW**

**VARIETY  
OF FINISHES**

*“Through our partnership with Clark Pacific, we feel confident taking on more projects which has helped us grow our data center business. They are a consistent and reliable partner that anticipates our needs and delivers high quality solutions that fit the project requirements and schedule.” -J.T. Magen*

# STANDARD DETAILS AND DESIGN

- Wall panels engineered to meet desired performance
- Multiple Sealant Lines
- Insulation thickness varies depending on thermal requirements (R-value).
- Wall panels can be cladding or load bearing
- Can be used for lateral load resistance

## TYPICAL PANEL

Typical R-Value Range: 15 - 25

## COMMON USE

- DATA CENTERS
- INDUSTRIAL / WAREHOUSING
- COMMERCIAL
- INSTITUTIONAL

**Build different.  
Achieve more.**
