

SIMPLIFYING DATA CENTER CONSTRUCTION

Smarter. Faster. More Predictable.

ACCELERATE YOUR DATA CENTER DELIVERY

High-performance prefabricated structural systems designed to meet the speed, scalability, and sustainability demands of modern data centers.

FASTER

Pre-engineered, manufactured offsite with just in time delivery ensures your data center is delivered in record speed.

CERTAINTY

Prefabricated structural data centers deliver budget and schedule certainty.

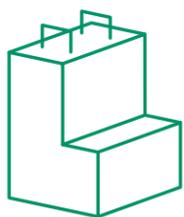

SUSTAINABLE

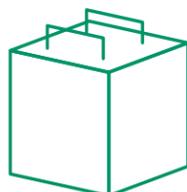

CARBONSHIELD®, our proprietary cement replacement mix, works hand-in-hand with our sustainable manufacturing processes to support your sustainability goals.

PREMIUM QUALITY WITHOUT THE PREMIUM PRICE

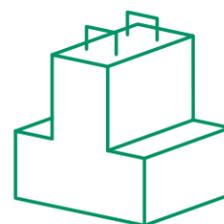

Our “Kit of Parts” offers prefabricated structural solutions that seamlessly integrate to create a complete, flexible, and efficient structure for next-generation data centers.
